Title: "Finders Keepers: Identifying New Cancer Targets"

Live audio webcasts of the Cowen and Stifel presentations can be accessed through the Events & Presentations section of the company's website at ir.atreca.com. An archived replay of each webcast will be available on the company's website for 90 days following the live presentations.

About Atreca, Inc.

Atreca is a biopharmaceutical company developing novel antibody-based immunotherapeutics generated by its differentiated discovery platform. Atreca's platform allows access to an unexplored landscape in oncology through the identification of unique antibody-target pairs generated by the human immune system during an active immune response against tumors. These antibodies provide the basis for first-in-class therapeutic candidates, such as our lead product candidate ATRC-101. A Phase 1b study evaluating ATRC-101 in multiple solid tumor cancers is currently enrolling patients. For more information on Atreca, please visit www.atreca.com.
